## PRODUCT UPDATE: 50-1403 Flange Face

Pro-Cut has updated **50-1403**, the Flange Face. The old unit had two pilot holes where the adapter pin fit; the new unit has 12 holes and a channel for the adapter pin to ride until it beds into one of the holes. The revision allows for easy mating of the lathe between the flange face and the adapter pin, increasing efficiency of setup.

**Note:** All lathe models manufactured after 2/1/13 have the new style flange. The 50-1403 can only be used with the 50-1400 bolt-on flange.

**Contact the Pro-Cut Service Department at 800.543.6618, Prompt #2, with any questions.**
