## NEW PRODUCT: 50-744 Super-thick Silencer

50-744 Pro-Cut's new Super-thick Silencer

Pro-Cut has received high demand from various truck shops requesting a heavier-duty silencer than our current “double-thick” silencer.

Our new **Super-thick Silencer, 50-744**, is meant for use on wider rotors of approximately 1.5”. A thicker rotor will allow the silencer to sit flat on the cheek of the rotor as it is being machined. The larger spring of the silencer will provide a greater pressure, helping reduce noise, as well as hold the unit in place when cutting through even the toughest rust.

**Contact the Pro-Cut Service Department at 800.543.6618, Prompt #2, with any questions.**
