50-TRANSIT Adapter Kit

Introducing the new adapter kit for the Ford full size Transit vans.
The 50-TRANSIT kit will work with single rear wheel and dual rear wheel models.

For Single Rear Wheel Models

The 250 Single Rear Wheel Transit uses a 5 on 160mm BCD pattern.
This pattern is found on the 50-696 adapter (hole #2) and uses 14mm lug nuts from the 50-179 nut and bolt kit.

For Dual Rear Wheel Models

The 350 Dual Rear Wheel Transit uses a 6 on 180mm BCD pattern.
This pattern is found on the 50-934 dual wheel adapter (hole # 2) and also uses 14mm lug nuts from the 50-179 nut and bolt kit.
In the front, the adapter and the lug nuts are all that is required.
For the rear, 3 spacers (PN #50-962) on every other stud are required to clear the center hub.

The 50-TRANSIT kit includes:

- 1)50-696 Single Wheel Adapter
 - 1)50-934 Dual Wheel Adapter
 - 3)50-962 Dual Wheel Spacers
- Parts can also be ordered individually.

As always, the vehicle should be in neutral and traction control disengaged.
